

Bench dispenser for single sided adhesive tapes for handles up to 50 mm (2") in width, 360 mm of maximum external diameter and 75 mm (3") cores .

CAUTION

This professional tool is provided with sharp blades (A+B) for the cutting of the tape. Use it with caution, to avoid injuries to your hand. Do not let children use it.

SETTING

Fix the core holder extension (F) by the 2 handwheels enclosed (G). Fix the dispenser to the table by means of screws (not included) or by pieces of double sided tape. Load the tape (photo below). Adjust the knurled knob (D) at the minimum braking torque that avoids the easy unroll of the tape. Set the measuring arm according to the length required and fix it by the knob (E).

MAINTENANCE

Remove the adhesive from the blades using a plastic or wooden tool and clean with alcohol. Lubricate from time to time the shafts of the rolls using Vaseline oil. Do not use solvents. We grant the supply of all the spare parts. This permits to extend the life of the product. Please contact your supplier to get the parts. Particular care is required in replacing scissors blades. We will let you have additional instruction in this case.

RECYCLING

When disposing of these products, it is necessary to give consideration to the effective use of resources, waste handling and cleaning. Please recycle the old products as much as possible. We recommend disassembling the products into metal and plastic parts and recycle separately. Plastic parts are mainly made of ABS and PA (polyamide) resins. Please dispose of this product according to the waste management law of the country where it is used.
